RE: Resignation of Commissioners

DATE: March 21, 2008

There have been some questions in regards to Governor Paterson asking for resignations from current Commissioners and how this will affect the Commissioner of Corrections.

Please be advised that this is a formality that is exercised by new Governor's upon taking office. "This is a typical step in the transition of one administration to another," said Paterson spokesman Errol Cockfield Jr. "This is not a signal there will be mass departures throughout the administration."

NYSOPBA will continue to monitor and relay information should any changes be made that effect our membership.

Please check the NYSOPBA website often for accurate information. Thank you for your continued cooperation.
