RE: Bullet Proof Vests

DATE: August 31, 2005

As a result of the tragic incident that occurred in Tennessee, there has been recent discussion with the Department in regards to bullet proof vests for transportation officers.

As a result of the discussions, any transportation officer wishing to request a bullet proof vest for transportation can do so by asking the Dep. of Security at their facility.

If you have any questions or concerns, please feel free to contact me.
