

Benefit for **Rickie Los**

FOOD

MUSIC

Rick is a correctional Officer at Collins Correctional Facility. He is currently undergoing treatment for cancer of the Lymph Nodes and Throat. Rick has never smoked in his entire life. Due to his treatment, he has been out of work since May and with a good prognosis, prayers and moral support the doctors believe he will be able to return to work at the beginning of February. This benefit is to help offset the cost of his treatment that the insurance companies do not cover and to give him the moral support and strength to fight this set back he has endured.
