

## Article 8 New Select Panel for Abuse and Neglect Personal History Folder

This shall confirm our discussions during negotiations for the 2016-2021 collective bargaining concerning maintenance of records in personnel files that result from hearings under the new select panel for abuse and neglect cases. As we discussed, only records concerning a hearing where an employee was found guilty of a charge in a notice of discipline are covered under the negotiated provisions. Records in cases where an employee is completely found not guilty of all charges shall not be kept in that employee's personal history folder.
